

Manufactured and Tested
to International Standards
ISO-9001:2000 Certified

- ISO 9001 & CE Approvals
- Polished Stainless Steel Cylinder
- Corrosion Resistant SS304 Alloy
- Stainless Steel Head Assembly
- All Metal Components

(Temperature Range 0°C to 60°C)

Titan Water fire extinguishers are most effective on Class A fires as they extinguish and cool the area quickly soaking into the substrate preventing reignition.

Titan Foam fire extinguishers use an AFFF foam @ 3% solution. The AFFF formula provides a blanketing effect that smothers and cools both Class A & Class B fires, and greatly reduces flashback as it suppresses all vapours.

SPECIFICATIONS	Water	Foam
Size & Capacity	9 Litre	6 Litre
Application	Hose & Nozzle	Hose & Air Aspirated Nozzle
Model Number	PSE 1204	PSE 22-01
CE Rating	21A	21A 144B
Weight (lbs)	28	19
Height (in)	25	21
Outer Diameter (in)	8	7
Discharge Time (sec)	60	20
Standard Bracket	Wall	Wall
