

- Economical
- Rechargeable
- Stored Pressure Design
- Carbon Steel Cylinder
- Stainless Steel Head Assembly
- Epoxy Powder Coated Finish
- All Metal Components
- 6 Year Warranty
- Temperature Range -30°C to 60°C
- Brackets or Hooks Included With All Models

TITAN ABC Portable Fire Extinguishers use a siliconized Mono Ammonium Phosphate Dry Chemical. This powder smothers Class A fires by coating the surface of the material and melting into a blanket. On Class B fires the Dry Chemical stifles the burning vapour and restricts oxygen flow, reducing flashback. ABC Dry Chemical powder will not conduct electricity back to the user.

AVAILABLE IN WHEELED AND STATIONARY MODELS.

CLASSES OF FIRES	TYPES OF FIRES	PICTURE SYMBOL
A	Wood, paper, cloth, trash & other ordinary materials.	
B	Gasoline, oil, paint and other flammable liquids.	
C	May be used on fires involving live electrical equipment without danger to the operator.
