Fire Extinguisher Stand
29" H x 13" W - 2" Base

Key Features of Floor Stands

- **Freestanding Design:** Allows easy placement along corridors, in warehouses, offices, or construction sites where drilling into walls is not ideal or possible.
- **Base Stability:** Features a molded, raised base to prevent tipping when holding heavy extinguishers (typically 5 lb to 20 lb or 4.5 kg to 12 kg units).
- **Single Capacity:** Holds Water, Powder, Foam, or CO_2 extinguishers.
- **Signage Support:** Many models include a backboard or dedicated space for fire extinguisher ID and direction signs.

Color:	Red
Material:	These one-piece plastic stands are heavy duty and fabricated from one piece of plastic.
Size:	29" height x 11.5" width x 13" depth
