Wash & Wax Concentrate

◆ UNIQUE FEATURES:

- ✓ Best Value for Money
- ✓ Ideal for Commercial Detailing
- ✓ Superior Concentrated Formulation
- ✓ Cleans and Shines in one application while leaving a protective silicone coating that repels water and dirt.
- ✓ Blend of detergents, surfactants and silicone oil emulsions
- ✓ Biodegradable and Environmentally safe.
- ✓ Excellent for car and truck washing
- ✓ Fast rinsing.
- ✓ Does not affect plastics, rubber or paints.

◆ CONCENTRATED FORMULA:

Allows for customized dilutions based on customer preference & applications

MADE IN THE U.S.A.

◆ PRODUCT APPLICATIONS:

Wash and Wax is a highly concentrated car wash shampoo that contains cleaning detergents and silicone emulsions, allowing fast rinsing, drying and a durable shine to the surface. It leaves a protective coating, that repels water, makes surface more resistant to dirt and stains.

This concentrate can be used to wash cars, trucks, boats, airplanes as well as most metal surfaces and plastics.

To remove heavy soil: Dilute 16 oz in a 5 gal bucket with water.

For frequent maintenance and light jobs: Use 10 oz in 5 gallons water.

For high pressure washing: Dilute up to 80 times.

For best results pre-wet surface, apply **Wash and Wax** solution, rub and clean with cloth, sponge or jet; rinse with water and allow to dry. For best shine, buff with dry soft cloth.

See label for further directions and check SDS for precautionary statements before using this product.

◆ PRODUCT PROPERTIES:

Appearance:	Thick yellow liquid with hazy appearance and detergent odor
Boiling Point:	212 F
Specific gravity:	1.02gr/cc
Chemical type:	Ionic detergents blend
Storage stability:	Stable for 1 year
% Volatiles:	70%
Flammability:	Non flammable
Solubility in water:	Emulsifies
