

Clear Plastic Cleaner

SAFE FOR FLAT SCREEN DISPLAYS

Keeps Clear Plastic Clean

Great for Sneeze Guards

Will Not Fog or Discolor Acrylic

CLEAR PLASTIC CLEANER

Clear Plastic Cleaner gives transparent plastics a streak-free, clear finish and a smooth, anti-static surface that repels dust from clear plastics on electronics, appliances, eyewear, cars, trucks, RVs, aircraft, and boats. Ideal for keeping sneeze guards and face shields clean and protected!

CLEANS STREAK FREE

Removes fingerprints, dust, dirt, soot, pet slobber, smudges, smears, smoke haze, and contaminants from clear plastics in your business, home, or vehicle. Contains no scents or dyes that can cause streaks. It can be used anywhere you would normally use window cleaning products. It eliminates static, which attracts dust and dirt.

POLISHES WITHOUT SCRATCHING

It polishes clear and colored plastics, leaving a shiny, brilliant, and clear finish. It penetrates the pores of clear plastic to form a barrier that seals out dust, which is naturally attracted to plastic.

It even makes micro-scratches less visible. That's because it contains no harmful abrasives which can scratch or haze the surface.
