

## 715 Selectable Gallonage Nozzle (115-230-360-475 LPM)

### #715-BI

- ◆ Designed for versatility with multiple flow settings and combinations of fog and stream
- ◆ Selectable flow at a pressure. Once the flow is selected, it does not change with the pattern
- ◆ Detent design for the flow selector
- ◆ Stainless steel spinning teeth produce wide protective fog for firefighters
- ◆ Flush debris without shutting down
- ◆ 1/4 turn from straight stream to fog
- ◆ Ball shutoff
- ◆ Meets NFPA1964 Standard
- ◆ Constructed for durability with stainless steel components, protective front bumper, and metal selector ring
- ◆ Lightweight hardcoat anodized aluminum
- ◆ Provides NH, BSP and NPSH standard swivels for choice

#### Accessories:

**BI Adaptor - 2.5"**

**Foam Tube**

NO. 982    Length 536mm    Weight 1.09kg
