X-TREME versatility — Auto-Line™ circuitry automatically connects to 120-240 V, single-phase power, 60 Hz, without making internal changes. (Output amperage is automatically reduced to 27 A for 120 V input.)

### X-TREME protection — X-CASE™ provides ultimate protection and additional space for MVP adapters, consumable box, gloves, and eye

X-TREME portability — at just 21 pounds the shoulder strap allows the end user to easily move from location to location.

protection, etc.

Auto postflow calculates the optimum length of postflow time to optimize consumable life and eliminate excessive air usage.

### Heavy-duty work clamp

with flexible cable and quick connect.

### LVC™ line voltage compensation provides peak performance power under variable conditions (power fluctuations up to ±15 percent) for steady cuts and

cleaner ending cuts.

Auto-Refire™ technology provides ultimate customer convenience by automatically controlling the pilot arc when cutting expanded metal or multiple pieces of metal. The pilot arc will switch in and out as fast as needed when cutting expanded metal and provides maximum power for cutting thicker metal — all automatically! No need for manual re-triggering which reduces user hand fatigue.

#### Ultra-Quick Connect™ XT40 torch

with an ergonomic handle to help prevent operator fatigue and a flexible cable that makes maneuvering easier (see page 4 for more detail).

Compatible with engine-driven welders. Complete cutting capability when powered by an engine-driven welder/generator with a 240 V receptacle of 4 kW or more.

- XT40 hand-held torch with 12 ft. (3.7 m) or 20 ft. (6.1 m) cable — torch includes a complete set of 40 A consumables
- Heavy-duty work clamp with flexible cable and quick connect
- 12 ft. (3.7 m) power cord with 240 V L6-30P twist lock plug for MVP™ adapters
- MVP<sup>™</sup> adapters with 240 V, 50A (6-50P) plug and 120 V, 15 A (5-15P) plug
- X-CASE<sup>™</sup> provides protection during transport and storage
- Shoulder strap
- Consumables box with 2 electrodes. 2 tips (40 A), one tip (30 A), drag shield (30 A), deflector and air fitting

MVP™ adapters allow connection to 120 or 240 V receptacles without tools — choose the adapter cord with the right plug that fits the receptacle and connect it to the power cord with the L6-30R twist lock.

> LED indicators for power, pressure, cup and temperature allow faster troubleshooting, eliminating unnecessary downtime.

Automatic air regulation compensates for input pressure variation to provide constant recommended torch pressure for optimum cutting performance.

Automatic gouging consumable detection adjusts gas pressure to optimize performance, eliminating the need for a manual regulator.

Power source is warranted for three years, parts and labor. XT torch is warranted for one year, parts only.
