## T-REX® POWER SEAL AND BOND

T-REX® POWER Seal and Bond formulated with innovative SMX® technology combines the permanent flexibility of a sealant with the strength of a construction adhesive. Immediate grab, incredible end strength, and tenacious adhesion make Seal and Bond perfect for heavy duty sealing and bonding applications with most common building materials for both indoor and outdoor use. Once cured, it forms a strong, durable, long-lasting, and elastic waterproof seal.

### SUBSTRATES

Wood - Moldings - Tiles - Panels - Brick - Concrete - Plastics - PVC - Polycarbonate - Fiberglass - Insulation Materials - Polystyrene - Metals including Steel, Galvanized Steel, Aluminum - Plasterboard - Cement Sheeting - Stone - Cardboard - Vinyl - Powder Coated Surfaces - Most Rubber - Cork - Glass - Mirrors - Most Coatings

## T-REX® GRAB HEAVY DUTY ADHESIVE

T-REX® GRAB Heavy Duty Adhesive is a solvent-based high performance grab adhesive. It can be used for bonding of most construction materials (porous and non-porous), both inside and outside.

### SUBSTRATES

Plywood - Lumber - Particle Board - Wet & Frozen Lumber - OSB - Treated Lumber - Drywall - Masonry - Polystyrene - Brick - Cork - Concrete - Tiles - Ceramics - Metal

## T-REX® GRAB DRYWALL ADHESIVE

T-REX® GRAB Drywall Adhesive is a water-based high performance adhesive designed with strong initial tack and excellent adhesive strength making it the ideal product for drywall installations. The resulting permanent bond allows for the reduced use of screws.

### SUBSTRATES

Lumber - Particle Board - Drywall - Masonry - Brick - Concrete - Metal Studs

## T-REX® GRAB SUBFLOOR ADHESIVE

T-REX® GRAB Subfloor Adhesive is a solvent-based high performance adhesive designed with strong initial tack and excellent adhesive strength making it the ideal product for subfloor installations. The resulting permanent bond remains flexible to prevent squeaky floors and reduces nailing.

### SUBSTRATES

Plywood - Lumber - Particle Board - Drywall - Wet Lumber - Concrete - OSB - Frozen Lumber - Treated Lumber

## T-REX® GRAB SUPER GRAB ADHESIVE

T-REX® GRAB Super Grab Adhesive - can be used for bonding porous decoration materials inside.

### SUBSTRATES

Drywall - Plaster - Foam Board - Aluminum - Masonry - Brick - Ceramics - Tiles - Cork - Concrete - Plastics\* - Polystyrene - Glass - Metal\*
