SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

For personal protection see section 8. Persons not wearing protective equipment should be excluded from the area of the spill until cleanup has been completed.

Environmental precautions

Prevent from entering drains, sewers, streams or other bodies of water. Prevent from spreading. If runoff occurs notify authorities as required.

Methods and materials for containment and cleaning up

Small Spill: Pick up with absorbent material such as vermiculite. Dispose as directed by local regulatory norms.

Large Spill: Stop spill at source. Isolate and dike with soaking material. Absorb on inert material and scrape up. Keep away from fires and any ignition source. Dispose according to local laws.
