

TITAN Fiberglass Storage Cabinet with Built-In 30" Fiberglass Legs

Function:

Used to protect fire equipment from salt-air, chemicals and other hazards associated with certain manufacturing environments.

Dimensions:

- Width: 58"
- Height: 38"
- Depth: 15"

Color: UV-inhibited Red Exterior, Black Interior

Material: High quality, hand-laid fiberglass construction, which is superior to metal or plastic in corrosive environments.

✓ Full-length stainless steel hinges, rivets and quick-opening latches.

✓ 1/2-inch thick sandwich cabinet and 1/8" thick overlapping door.

✓ Designed for durability and strength in extreme conditions
