

Ready-To-Use Surface Prep Panel Wipe

Residue / Surface Contaminant Cleaner

UNIQUE FEATURES

InterChem's Surface Prep Panel Wipe is an alcohol and surfactant based solution to remove any existing residues, surface contaminants or oils left behind during the polishing process. This product is to be used before applying a coating.

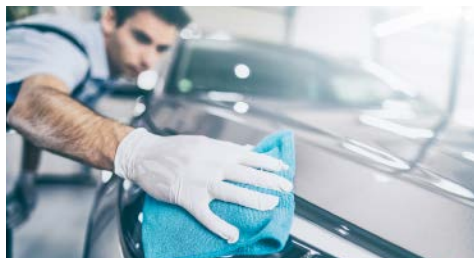

- ♦ For use before ceramic application
- ♦ Removes traces of cleaners, polish residue, and other contaminants.
- ♦ Easy spray-on, wipe-off solution
- ♦ Use on paint, plastic and chrome surfaces

FOR USE BEFORE CERAMIC COATING

REMOVES CONTAMINANTS

SAFE ON PAINT, PLASTIC & CHROME SURFACES
