

Ready-To-Use Universal Interior Detailer

UNIQUE FEATURES

- ◆ Active Cross-Linking Polymer
- ◆ Non-Streaking Matte Finish
- ◆ UV Protection
- ◆ Anti-Static

InterChem's Universal Interior Detailer and surface protectant is suitable for nearly every interior surface of the vehicle including:

- ◆ dashboards
- ◆ door panels
- ◆ plastics
- ◆ vinyl
- ◆ glass
- ◆ screens & displays
- ◆ navigation screens
- ◆ leather
- ◆ carpet and upholstery

This water-based, non-silicone formulation contains an active cross-linking polymer that generates a durable, matte finish and non-greasy, streak-free surface protection that lasts up to 60 days per application.

Additionally, the formulation contains a UV scavenger, odor encapsulant, chelates, and a powerful blend of cleaning surfactants effective at removing sticky residues, dust, fingerprints, smudges, dirt, and stains. When used on textiles, agitation will produce a foaming action.
