

ABC Dry Chemical

- Economical
- Rechargeable
- Stored Pressure Design
- Carbon Steel Cylinder
- Stainless Steel Head Assembly
- Epoxy Powder Coated Finish
- All Metal Components
- 6 Year Warranty
- Temperature Range -30°C to 60°C
- Brackets or Hooks Included With All Models

TITAN ABC Portable Fire Extinguishers use a siliconized Mono Ammonium Phosphate Dry Chemical. This powder smothers Class A fires by coating the surface of the material and melting into a blanket. On Class B fires the Dry Chemical stifles the burning vapour and restricts oxygen flow, reducing flashback. ABC Dry Chemical powder will not conduct electricity back to the user.

AVAILABLE IN WHEELED AND STATIONARY MODELS.

SPECIFICATIONS	ABC DRY CHEMICAL POWDER			
VALVE TYPE	STAINLESS STEEL			
SIZE & CAPACITY (LBS.)	2.5	5	10	20
APPLICATION	NOZZLE	NOZZLE	HOSE & NOZZLE	HOSE & NOZZLE
MODEL NUMBER	PSE 0402	PSE 0404	PSE 0407	PSE 0411
CE RATING	5A 34BC	13A 70BC	21A 113BC	34A 183BC
WEIGHT (LBS.)	5	9	16	31
HEIGHT (IN.)	13	13	17	23
OUTER DIAMETER (IN.)	3.5	5	6	8
DISCHARGE TIME (SEC.)	12	25	34	70
CARBON STEEL CYLINDERS	YES	YES	YES	YES
STAINLESS STEEL CYLINDERS	N/A	N/A	YES	YES
